

Private Homes Design Priorities

(consensed at first Private Homes Design Workshop)

Group #1

- quality construction/low maintenance
- energy efficient/passive solar
- sustainable design & materials
- affordability

Group #2

- daylighting
- healthy building materials
- efficient use of space
- aesthetics/beauty
- open & spacious

Group #3

- simplicity of building form
- private/public balance
- future expandability

Group #4

- marketability
- flexibility of functions
