Cohousing Now!

Affinity Groups

*An **affinity group** is a group formed around a shared interest or common goal, to which individuals formally or informally belong.*

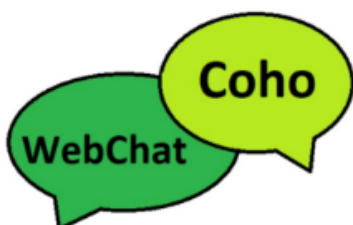

CohoUS would like to continue the evolution of
'Collective' > 'Consortium' > 'Regions' > 'Birds of a Feather'
and introduce our new committee > **Affinity Groups**

These groups all have some common thread. That thread might simply be cohousing and the affinity is their geographical location. There may be a group of people interested in banding together to make policy change in housing at a state or federal level. Or perhaps it is people of similar beliefs or unique hobbies wanting to connect to others within the cohousing world. Whatever the thread is, we'd like to help connect you.

Once you've established connections, consider what to do with them. We know why cohousing is good for us as individuals, but can the group demonstrate to the world how living in community can make the world a better place? What can we collectively offer besides shared interests?

The Stages of Cohousing Development

Cohousing development is a long and complex process which can be divided into stages. Each stage has different tasks and challenges and requires different resources and skills to navigate successfully. In this WebChat, Katie will describe the stages and what is needed to successfully complete each one.
