Collecting info on COHOUSING AND COVID-19

Emanuele Giorgi, professor at Tecnológico de Monterrey (México) writes:

During these last weeks, I was thinking how cohousing communities are facing the contingency of covid-19. Actually, since I strongly believe in co-housing, I am convinced that the “contemporary individualistic housing” could learn a lot from your experience.

For this reason, I would like to invite you and all the members of your community to participate in this project answering this questionnaire, which is 100% anonymous with only some mandatory questions.
